

Xplore Resources Acquires New Lithium Properties in Root Project Area, Ontario

VANCOUVER, BC, December 27, 2023 - Xplore Resources Corp. (TSX-V: XPLR) (“Xplore” or the “Company”) is pleased to announce the entering into of option agreements with arms’ length parties to acquire a 100% interest in five additional prospective lithium properties in the Root project area in northwest Ontario (Figure 1). The new properties expand the Company’s land position in Ontario by 11,000 ha, for a total of 18,800 ha.

Acquisition Highlights

- The **Root North** and **Root Falls Properties** are comprised of 14 unpatented mineral claims and expand the land position at the Surge Project by 2,600 ha.
- The **Cathy Creek Property** is comprised of six unpatented mineral claims totaling 2,600 ha. The property is underlain by metasediments and is located 1.5 km from the boundary of the Rooth South Pluton, a peraluminous S-type fertile granite.
- The **Raggy Creek** and **Aerial Lake Properties** are each comprised of six unpatented mineral claims for a total of 5,800 ha. These properties are located in the English Rivier Subprovince and underlain by metasediments and peraluminous S-type granites. The Raggy Creek property is located 10 km from the terrain boundary between the Uchi Subprovince and the English River Subprovince.

Agreement Terms

Under the terms of the option agreement to acquire the Cathy Creek, Raggy Creek and Aerial Lake properties, the Company must pay a total of \$204,000 over three years and issue upon acceptance of agreement by the TSX Venture Exchange 900,000 common shares. The optionors will retain a net smelter returns royalty of 1.5%, 0.5% of which can be purchased by the Company for a cash payment of \$500,000.

Under the terms of the option agreement to acquire the Root North property, the Company must pay a total of \$75,000 over three years and issue upon acceptance of agreement by the TSX Venture Exchange 300,000 common shares. The optionors will retain a net smelter returns royalty of 1.5%, 0.5% of which can be purchased by the Company for a cash payment of \$500,000.

Under the terms of the option agreement to acquire the Root Falls property, the Company must pay a total of \$87,000 over three years and issue upon acceptance of agreement by the TSX Venture Exchange 600,000 common shares. The optionors will retain a net smelter returns royalty of 1.5%, 0.5% of which can be purchased by the Company for a cash payment of \$600,000.

Each of the above option agreements is subject to the acceptance of the TSX Venture Exchange.

About Xplore Resources

Xplore Resources is a mining exploration company listed on the TSX Venture Exchange under symbol XPLR and is focused on the acquisition and exploration of grass roots lithium properties in Canada and Brazil. The Company is led by a highly experienced management team comprised of industry experts with executive and senior management experience in geology, banking, private equity, investor relations and law.

Lithium Properties

The Company is earning a 100% interest in the Surge (~3400 ha) and Perrigo Lake (~3300 ha) lithium properties, both situated in northwestern ON, approximately 100 kms north of Sioux Lookout ON. The Surge property lies along the regional scale Pakwash-Lake St. Joseph Fault, approximately 2.0 kms east of the Root Bay lithium discovery. The Perrigo property is located west of the Allison Lake batholith considered to be “the largest fertile peraluminous granite mass in northwestern Ontario.”

The Company, through its wholly owned Brazilian subsidiary, holds a 100% interest in the Energia (~4500 ha) and Borborema (~9100 ha) lithium properties in Brazil. The Energia claims are situated in the state of Minas Gerais, the center of Brazil’s rapidly evolving lithium production. The Borborema claims are situated in the state of Rio Grande do Norte in northeastern Brazil, in a Borborema pegmatite field, a historically significant producer of tantalum prior to 1980.
